-----

Our innovative, safe and reliable technology delivers high performance on land, at sea, in the air and in space. Saft is powering industry and smarter cities, while providing critical ...

As New Zealand electrifies, more grid-scale batteries will support the growing renewable energy supply. Meridian Energy is ...

Meridian Energy has completed construction of New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakākā, with an official opening ...

Genesis Energy, a publicly listed energy company in New Zealand, has commenced construction on a significant battery energy storage system (BESS) with a capacity of ...

Meridian Energy has officially opened New Zealand's first large-scale grid battery storage system at Ruakākā, the first of its kind, and a milestone in the country's renewable ...

As New Zealand electrifies, more grid-scale batteries will support the growing renewable energy supply. Meridian Energy is building a 100MW (200MWh) battery near ...

New Zealand's first utility-scale battery energy storage system has commenced operation with electricity distribution company WEL Networks confirming that its 35 MW/35 ...

Find out how to choose the best battery for a solar energy system, by comparing the latest solar battery models available in New Zealand.

Technological advancements are dramatically improving solar storage container performance while reducing

costs. Next-generation thermal management systems maintain optimal ...

The Saft battery division of French energy and petroleum multinational TotalEnergies will supply 70 of its containerized Intensium ...

New Zealand's first utility-scale battery energy storage system has commenced operation with electricity distribution company WEL ...

Genesis Energy, a publicly listed energy company in New Zealand, has commenced construction on a significant battery energy ...

Meridian Energy has officially opened New Zealand's first large-scale grid battery storage system at Ruakākā, the first of its kind, ...

CentrePort has already made great strides with its energy transition in a relatively short period of time, with its 100% electric port ...

The Saft battery division of French energy and petroleum multinational TotalEnergies will supply 70 of its containerized Intensium Shift+ battery energy storage ...

CentrePort has already made great strides with its energy transition in a relatively short period of time, with its 100% electric port trucks and associated battery management ...
