-----

In the realm of modern energy solutions, cabinet type energy storage battery factories play a crucial role in meeting the growing demands for sustainable power sources. ...

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, today announces the acquisition of its long-term partner, Memfault Inc., the market-leading cloud ...

Cellular IoT Wi-Fi Bluetooth Low Energy Nordic Product Guide [Click to download PDF](#)

In the realm of modern energy solutions, cabinet type energy storage battery factories play a crucial role in meeting the growing demands for sustainable power sources.

"Think of supercapacitors as the sprinters of energy storage," says Dr. Lena Fjellstr m, project lead at Nordic Energy Research. "They're not here to replace marathon ...

"We selected the Nordic nRF5340 for our LEO-L50 outdoor asset management device due to the SoC's powerful computing and low power consumption capabilities, as well as its support for ...

Nordic Semiconductor is a global leader in low power wireless connectivity solutions, providing the essential platform and wireless technologies that connect the world's IoT devices.

It is designed as a complementary component to Nordic's nRF52 Series and nRF53 Series System-on-Chips (SoCs) to ensure reliable power delivery and stable operation, whilst ...

Energy storage cabinets function by capturing and storing electrical energy in battery cells. The process begins when available energy--typically from a renewable source, ...

The interactive online learning platform here to equip developers with the technical information and know-how to build wireless products using Nordic Semiconductor solutions.

An integrated RISC-V coprocessor can run software-defined peripherals and handle time-critical tasks. With innovative technologies emerging - like Channel Sounding in Bluetooth 6.0 - ...

Our battery energy storage solutions are designed, developed, and manufactured in Finland. From inverters to control and protection systems, everything is crafted locally to ensure high ...

While we provide standardized energy solutions, the cabinet/containerized batteries, ranging capacity from 60kWh to 6 MWh, are made to meet specific requirements. In addition, our ...

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, today announces the launch of the nRF9151 SMA Development Kit (DK), a ...

This expertise explains why Chinese giants like Sungrow and domestic players alike are racing to establish Finnish manufacturing hubs. The upcoming Arctic Storage Innovation Center (2026) ...

Nordic Semiconductor is a leading provider of low-power wireless communication solutions, utilizing decades of ultra-low-power wireless expertise to maximize Wi-Fi's low-power potential ...
