Who is Nordic power supply?

Nordic power Supply is a Swedish company that develops and sells quality equipment for power line construction. We build and adapt products to the customer's request. Our focus has always been safety, quality and satisfied customers.

Where are solar power plants made?

Headquartered in Shanghai with 50,000m²+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Whether there is insufficient space inside existing buildings for a new power supply, no building exists, or there's a need for a system to be continuously mobile, Ampegon has experience ...

A shipping container solar system is a modular, portable power station built inside a standard steel container. A Higher Wire system includes solar panels, a lithium iron phosphate ...

The "Photovoltaic + communication" can support distributed PV power stations for communication base stations, realize local power supply, and solve the problems of power consumption of ...

A shipping container solar system is a modular, portable power station built inside a standard steel container. A Higher Wire system ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Our patent protected solar power units fits perfectly on top of 20" or 40" containers. No more hassle to get cost-efficient, green, energy to your ...

Nordic power Supply is a Swedish company that develops and sells quality equipment for power line construction. We build and adapt products to the customer's request. Our focus has ...

EK-SG-R01 is a large outdoor base station with large capacity and modular design. This series of products can integrate photovoltaic and wind clean energy, energy storage batteries, and ...

As a self-contained, self-sustaining power station, PowerCube #174; is uniquely suited to support military and disaster relief efforts, and being housed in a standard shipping container makes it ...

Our patent protected solar power units fits perfectly on top of 20" or 40" containers. No more hassle to get cost-efficient, green, energy to your containers.

Whether there is insufficient space inside existing buildings for a new power supply, no building exists, or there's a need for a system to be ...

The solar power supply system for communication base stations is an innovative solution that utilizes solar photovoltaic power generation technology to provide electricity for communication ...
