-----  
How many power plants are there in North Macedonia?

The electric power production system in North Macedonia consists of two coal power plants with a total installed capacity of 825 megawatts (MW), several hydro power plants with a total installed capacity of 695 MW, one combined generation power plant, a heavy oil plant, solar power plants, a few biogas plants, and two wind power farms.

What is North Macedonia's Energy Strategy?

As the world moves towards decarbonisation and green energy, North Macedonia is executing an ambitious national energy strategy, which foresees a 66% reduction of greenhouse gas emissions from the energy sector compared to 1990 by 2030.

Is North Macedonia a state-owned power company?

North Macedonia's state-owned power company was unbundled and partially privatized in the early 2000s. Austrian utility company EVN has been responsible for electricity distribution in North Macedonia since entering the market in 2006.

Does North Macedonia still have a coal power plant?

The smaller coal power plant, "REK Oslomej," which was dormant through 2020, was reactivated in 2021 to help North Macedonia reduce its reliance on electricity imports. ESM refurbished the "REK Bitola" coal power plant boilers in 2017, but its equipment is still largely outdated.

Turkish renewables company Fortis Energy has contracted Pomega Energy Storage Technologies to install a 62-MW/104-MWh battery at the site of a 80-MWp solar park it ...

In a recent interview, North Macedonia's Minister of Energy, Mining and Minerals Sanja Božinovska said projects are under ...

This guide explores cutting-edge storage technologies, local applications, and how solutions like lithium-ion batteries are reshaping the country's energy landscape.

In a recent landmark auction, the North Macedonian government received 44 bids for battery storage projects, totaling an impressive 4.2 GW of capacity. This ambitious move is ...

For energy storage systems planned to be connected to a generation capacity, the draft Energy Law requires obtaining of an authorization for construction of a new energy ...

For energy storage systems planned to be connected to a generation capacity, the draft Energy Law requires obtaining of an ...

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy ...

State-led solar and wind projects, along with investments in grid infrastructure and storage, are now advancing at pace. More recently, the Macedonian Solar Energy Association ...

State-led solar and wind projects, along with investments in grid infrastructure and storage, are now advancing at pace. More recently, ...

Energy storage, encompassing the storage not only of electricity but also of energy in various forms such as chemicals, is a linchpin in the movement towards a decarbonized energy ...

China-based Cubenergy will provide the energy storage systems while YESS Power will manage all engineering, procurement, installation, and commissioning phases. This ...

The government is likely to replace the dormant heavy oil-fired "TEC Negotino" power plant with a new gas-fired power plant. The government has negotiated a loan with the ...

In a recent interview, North Macedonia's Minister of Energy, Mining and Minerals Sanja Božinovska said projects are under development for battery energy storage systems ...

China-based Cubenergy will provide the energy storage systems while YESS Power will manage all engineering, procurement, ...
