Inscape Data offers total turnkey solutions for outdoor PoE, wireless (i.e., high power 2.4GHz and 5GHz), and IP-based video surveillance applications.

From inverters to tapers and conduits to faceplates, SCHOTT Fused Imaging Fiber Optics come in a wide range of forms, each offering a high-quality customized component that meets your ...

This Outdoor Media Converter and PoE Injector is completely transparent to the network, so the network performs exactly the way it did before, only now it can support both copper and fiber ...

The Industrial Outdoor 10G SFP+ to 10G PoE++ Media Converter (TI-BF711SFP) converts a long-distance fiber connection to a copper connection, while providing PoE++ power. The outdoor ...

Altronix NetWaySP1BTWP Outdoor 802.3bt media converter/injector provides a single 802.3bt (4PPoE) port up to 90W and accommodates Fiber (1000Base-X/SX/LX) or structured cable to ...

When deploying fiber optic inverters in outdoor or industrial settings, it's crucial to select models explicitly labeled for external use and ensure proper installation with weather-resistant ...

Pre-terminated fiber optic cable for a plug & play installation -- no configuration or special tools needed. Gigabit Media Converters extend network or ethernet devices using a ...

With its IP65 rating, this inverter offers durability and reliability in demanding outdoor or industrial conditions. The EL100-S is equipped with a 10/100MB RJ45 Ethernet interface, allowing it to ...

Designed for use in the network access and drop cable portions of a preconnectorized network, hardened OptiTap and OptiTip connectors make installations faster, easier, and less costly.

Altronix NetWaySP1BTWP Outdoor 802.3bt media converter/injector provides a single 802.3bt (4PPoE) port up to 90W and accommodates ...

With its IP65 rating, this inverter offers durability and reliability in demanding outdoor or industrial conditions. The EL100-S is equipped with a ...

Discover iFiber Optix's high-performance Multimode Outdoor Multi-Fiber Trunk assemblies, engineered for reliable and efficient data transmission in outdoor environments.
