---

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, ...

SUNWODA's Outdoor Liquid Cooling Cabinet is built using innovative liquid cooling technology and is fully-integrated modular and compact energy storage system designed for ease of ...

Let's face it: energy storage isn't exactly the sexiest topic at a dinner party. But when it comes to keeping the lights on during a heatwave or powering factories without ...

Water-cooled energy storage systems encompass a variety of technologies that utilize water as a storage medium. At the core of this technology is the principle of thermal ...

Equipped with intelligent liquid cooling technology to ensure efficient heat dissipation, longer battery lifespan, and improved system stability. Combines LFP batteries, modular PCS, EMS, ...

Water-cooled energy storage systems encompass a variety of technologies that utilize water as a storage medium. At the core of this ...

The 261kWh liquid-cooled BESS is an advanced outdoor energy storage cabinet designed for commercial and industrial applications. Featuring a high-efficiency liquid cooling system, it ...

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

Equipped with intelligent liquid cooling technology to ensure efficient heat dissipation, longer battery lifespan, and improved system stability. ...

Liquid cooling offers superior thermal management, maintaining optimal battery temperature under high loads. It enhances safety, increases cycle life, and ensures consistent performance ...

The Outdoor Liquid Cooled Energy Storage System is emerging as a key technology to meet this demand. It offers enhanced safety, durability, and performance for ...

Each outdoor cabinet is IP56 constructed in a environmentally controlled liquid cooled cabinet including fire suppression. Multiple 373kWh cabinets can be installed together creating up to ...

Available in 232kWh and 261kWh capacities, this system is ideal for use in microgrids, off-grid energy solutions, and hybrid power systems. With advanced liquid-cooling technology, it ...
