We're working on PEAK! We're making PEAK easier to use! But we're not quite there yet. We're taking you to PEAK pages that we're still working on. They look different from the page you're ...

As energy prices fluctuate and grid demands grow increasingly complex, two concepts have become essential to modern energy strategy -- load shifting and peak shaving. ...

Battery storage projects surge as utilities prepare for next grid era in 2026 -- Battery storage projects nationwide are accelerating ahead of 2026, with utilities deploying systems to ...

People getting food or cash assistance can use the MyCOBenefits app. Download the free Health First Colorado and MyCOBenefits apps from the App Store or Google Play. Sign in with your ...

We're making PEAK easier to use! But we're not quite there yet. We're taking you to PEAK pages that we're still working on. They look different from the page you're on now. Don't worry, you're ...

Sheep graze among the panels at the Sherco Solar power plant in Minnesota, which is slated for a major solar plus storage expansion.

Vikings will utilize a 157 megawatt (MW) solar array paired with 150 MW/600 MWh of battery energy storage to shift low-cost daytime ...

Use PEAK to learn about, apply for or manage your health coverage, SNAP, cash or other state of Colorado benefits.

In this study, optimal peak clipping and load shifting control strategies of a Li-ion battery energy storage system are formulated and analyzed over 2 years of 15-minute interval ...

Performance-based incentive programs should allow utilities to dispatch enrolled energy storage systems during peak hours, either directly or through a third party.

Enter energy storage for peak shifting, the ultimate grid hack that's turning factories into energy ninjas and solar farms into time travelers. With the global energy storage ...

Vikings will utilize a 157 megawatt (MW) solar array paired with 150 MW/600 MWh of battery energy storage to shift low-cost daytime solar energy to higher-cost peak demand ...

Accelerated by DOE initiatives, multiple tax credits under the Bipartisan Infrastructure Law and Inflation Reduction Act, and decarbonization goals across the public and private sectors, ...

Use the Health First Colorado app to take control of your Medicaid benefits! Make an account at Colorado PEAK and download the free Health Colorado app. Learn more MyCOBenefits ...

In conclusion, energy storage systems are essential tools for effective peak load management. They reduce energy costs, improve grid reliability, facilitate renewable energy ...
