-----  
Will pumped hydro solve Poland's energy challenges?

The recent completion of Żarnowiec Pumped Storage Power Station's 750 MW expansion shows promise, but pumped hydro alone won't solve Poland's unique energy challenges. Here's the problem: Wind farms now contribute 12% of Poland's electricity, but their output fluctuates wildly.

Who is Polenergia?

Polenergia is Poland's largest privately owned energy group consisting of vertically integrated companies operating in the fields of power generation from renewable and gas sources, distribution and trading, and the sale of electricity to retail customers and business customers.

How Tesla Energy Group energy storage systems work?

The entire process of design, engineering, and assembly of TESLA Energy Group energy storage systems takes place in a plant with many years of experience in the energy sector. This plant is located in Żilina and is equipped with the latest technologies for assembly and testing, ensuring a high level of accuracy and quality.

Does socomec supply energy storage systems?

Socomec specializes in the supply of energy storage systems with power from 100 kVA to 6 MVA and capacity from 186 kWh to 20 MWh. As part of the offer, the company also offers full service support for energy storage systems combined with an extended warranty of up to 10 years.
