We are capable of providing comprehensive solar power systems with custom power generation solutions to help customers reduce energy bills while ensuring reliable power supply.

New "small cell" design is leading to very optimized rural base stations, offering both 2G and 3G/4G local coverage, connected with state-of-the-art VSAT terminals.

Designed for autonomous operation, our solar telecom power system supports weather monitoring stations, collecting environmental data in off ...

The communication base station installs solar panels outdoors, and adds MPPT solar controllers and other equipment in the computer room. The power generated by solar energy is used by ...

Whether you need a rugged outdoor enclosure for remote sites or a climate-controlled shelter for sensitive equipment, we have the expertise and products to meet your requirements.

Sunrisesenergy delivers customizable solar energy storage systems for communication base stations, featuring lower operation costs, reliability, and easy maintenance.

Designed for autonomous operation, our solar telecom power system supports weather monitoring stations, collecting environmental data in off-grid zones. It powers sensors, control ...
