---

A portable cathodic protection power supply with 60V, 30A DC output and a built-in solid state interrupter. The Universal Rectifier model TR-3 air cooled cathodic protection test rectifier, is a ...

SEL-LPS Linear Power Supply Provide auxiliary dc power to your protective relays in the classroom or lab. The SEL-LPS Linear Power Supply is backed by our 10-year worldwide ...

The invention discloses an emergency power supply system for a portable relay protection device.

The Kingsine KF85P is a multipurpose, light-weight, field portable test set, it capable of testing a wide variety of electro-mechanical, solid state and ...

Time saving, comprehensive, lightweight, and portable product designed for testing a wide variety of protective devices.

The Kingsine KF85P is a multipurpose, light-weight, field portable test set, it capable of testing a wide variety of electro-mechanical, solid state and microprocessor based protective relays, ...

A portable cathodic protection power supply with 60V, 30A DC output and a built-in solid state interrupter. The Universal Rectifier model TR-3 air ...

4 models optional, equipped with multi current output and voltage output channels, high power output for different kinds of relay testing and stable signal output with high accuracy.

It is powered by built-in high-capacity lithium battery, lightweight and compact, easy to operate, especially suitable for outdoor maintenance and testing of power intelligent terminal devices in ...

The Universal Rectifier model TR-2 air cooled cathodic protection test rectifier, is a portable cathodic protection power supply used for a variety ...

The Universal Rectifier model TR-2 air cooled cathodic protection test rectifier, is a portable cathodic protection power supply used for a variety of CP field test scenarios.

Test-750 single phase protective relay test instrument is a kind of excellent performance, portable test equipment in the field; it adopts aluminum alloy ...

SEL-LPS Linear Power Supply Provide auxiliary dc power to your protective relays in the classroom or lab. The SEL-LPS Linear Power Supply is ...

Test-750 single phase protective relay test instrument is a kind of excellent performance, portable test equipment in the field; it adopts aluminum alloy chassis. 150A/300V, big capacity 1KVA.

A portable cathodic protection power supply with 60V, 30A DC output and a built-in solid state interrupter. The Universal Rectifier model TR-3 air cooled cathodic protection test rectifier is a ...
