How much does a 100kW Solar System cost in India?

The growing popularity of solar, government incentives and competition among solar companies are some of the reasons behind this. The price of a 100kW solar system depends on its type as well as solar brands. However, the price of 100kW solar systems ranges from Rs.35/watt to Rs.50/watt in India.

Why is a 100kW Solar System a good investment in India?

Due to fewer components, an on-grid 100kW solar system cost in India is the lowest among all the three types of solar systems. During peak sun hours on sunny days, your solar panels are likely to generate a surplus. All the unused solar energy is fed to the grid in return for solar credits.

What is a 100 kW solar plant?

A 100 kW solar plant is an ideal solution for businesses and large residential properties looking to save on energy costs. It is essential to choose high-efficiency panels with a long warranty. Additional costs for installation, accessories, inverters, and battery storage can increase the overall expense of the system.
