How much do solar panels cost in New Zealand?

A 3kW solar power system would need ten 300W solar panels at a rough cost of \$8000 - \$10,000 in New Zealand. Conversely, a 4kW solar power system would require fourteen 290W solar panels at a ballpark figure of \$10k - \$11k installed.

Why should you buy a solar power system in Auckland?

Perfect for Auckland homeowners who want to stay connected to the grid while enjoying significant savings on energy bills. Ideal for those seeking energy independence and backup power during outages, while still maintaining a grid connection.

How many solar panels do I need in New Zealand?

Figuring out how many solar panels you need for your home in New Zealand doesn't have to be a head-scratcher. It all comes down to your household's energy habits, roof space, and how much sunshine your area gets. Most Kiwi homes opt for systems between 4kW and 8kW, which translates to around 9 to 19 solar panels.

Should you buy a solar battery in New Zealand?

Including batteries can sometimes be considered a high price. The investment is worthwhile for New Zealanders living in areas where power is costly or for those who wish to live off-grid solar and enjoy energy independence and the safety it affords.

Solarflow offers the most trusted and proven solar brands and equipment available in NZ, along with decades of installation expertise.
