The U.S. Department of Energy (DOE) announced it will redirect \$365 million in funding to address Puerto Rico's grid resiliency and expand access of secure power supply.

Despite the progress in both distributed and utility-scale battery storage, the Puerto Rico Energy Bureau has approved a new, 560MW gas plant and the procurement of ...

Despite ongoing grid challenges, Puerto Rico leads the U.S. in per capita adoption of rooftop solar and residential battery storage. Building on this momentum, LUMA proposed a ...

The U.S. Department of Energy (DOE) announced it will redirect \$365 million in funding to address Puerto Rico's grid resiliency ...

Nearly every night for the past two weeks, Puerto Rico's grid operator has called on tens of thousands of batteries scattered across the island to overcome energy shortfalls and ...

To help Puerto Rico reach 100% clean energy resources by 2050, the solar PV system can generate power directly to Puerto Rico's grid, and the battery storage system can ...

On Dec. 22, 2024, Puerto Rico's Governor Pedro Pierluisi announced the selection of Energiza to build and operate a new 478-MW power plant in San Juan. The plant will initially use liquefied ...

The US Department of Energy (DOE) today announced \$1.2 billion in financing to replace Puerto Rico's fossil fuel plants with solar and battery storage through 2032.

The Marahú project consists of two planned solar plus storage facilities, Salinas and Jobos, that will

incorporate the most advanced solar and ...

The US Department of Energy (DOE) today announced \$1.2 billion in financing to replace Puerto Rico's fossil fuel plants with solar and ...

The total investment in this project is estimated at \$767 million, paralleling Puerto Rico's largest power plant in capacity. Tesla's ...

Genera PR, the company operating the majority of Puerto Rico's energy generation resources, has begun construction on a 52MW battery energy storage system ...

The total investment in this project is estimated at \$767 million, paralleling Puerto Rico's largest power plant in capacity. Tesla's Powerwall 3 and Virtual Power Plant programs ...

On Dec. 22, 2024, Puerto Rico's Governor Pedro Pierluisi announced the selection of Energiza to build and operate a new 478-MW power plant in ...

The Marahú project consists of two planned solar plus storage facilities, Salinas and Jobos, that will incorporate the most advanced solar and energy storage technologies.
