How does seafold reduce empty container repositioning?

SeaFold containers effectively reduce empty container repositioning, leading to optimized storage at rail and truck terminals. This efficiency translates to fewer trucks and rail cars transporting empty containers, thereby lowering fuel costs. The streamlined process offers a practical solution for both economic and environmental concerns.

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.
