-----  
Why do people oppose solar projects?

Across the U.S., some opposition to larger solar projects comes from people who deny climate science. But some people opposing solar projects believe in climate change and are opposing solar on environmental and conservation grounds.

Why are McGowan & Roof arguing over solar projects?

McGowan and Roof are like lots of neighbors across the U.S. who are increasingly at odds over where to locate larger solar projects. Sometimes these disagreements are between people who deny climate science and those who accept that human-caused climate change is happening.

Do Amherst residents oppose solar?

Many community members in Amherst who favor conservation say they don't oppose solar. But they want it on residential and commercial rooftops and parking lots, arguing that these spaces have already been taken out of use as fields and forests.

How can local municipalities regulate commercial renewable projects?

Among other strategies, local municipalities are pursuing temporary or permanent moratoriums, passing resolutions, supporting petitions to intervene in permitting actions, and enacting land use plans that regulate the development of commercial renewable projects.

Achieving lower carbon emissions in the United States will require developing a massive number renewable energy facilities at an unprecedented scale and pace. Although ...
