Discover how Romania deployed 46kW retractable photovoltaic containers with energy storage systems. This flexible, mobile energy solution is ideal for temporary power ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

In this context, the first Romanian EPICS in IEEE project, entitled "Modular #Solar #Energy System" was approved in August 2025. The project, running from September 2025 to ...

Learn why schools use solar energy to reduce costs, improve sustainability, and enrich STEM learning. This guide covers the financial benefits, installation process, and how ...

In order to improve the energy management in Romanian schools, we propose the implementation of photovoltaic and solar thermal energy systems, which provide electricity and ...

Irene Mihai, Policy Officer at RPIA, explores Romania's solar capacity goals, prosumer growth, and the strategic steps needed to accelerate the green energy transition. ...

"While your peers are still struggling with diesel bills of \$0.5/kWh, your factory has achieved energy freedom by using diesel ...

"While your peers are still struggling with diesel bills of \$0.5/kWh, your factory has achieved energy freedom by using diesel generators and photovoltaics to supplement ...

guide covers the financial ...

The existent energetical situation of most Romanian schools is as follows: The buildings are old, most of them without a proper installation, and therefore a low energy ...

Our line of solar transportable power units (TMSPDC; Power AnyWhere Any Time;) provides stand-alone photovoltaic power. These portable units supply AC power just about anywhere ...

Irene Mihai, Policy Officer at RPIA, explores Romania's solar capacity goals, prosumer growth, and the strategic steps needed to ...

Below is a narrative description of how a solar-powered shipping container is revolutionising the face of access to global energy, off-grid energy, grid backup, and clean ...
