Explore GBA's blast resistant glass block products -- engineered for high security, extreme durability, and advanced architectural applications.

Among the various glass blocks designed for energy performance, four models in particular stand out for their exceptional U-values, solar control, and design flexibility.

Also known as Photovoltaic Sun Powered Illumination lights, these eco-friendly glass blocks serve as innovative building materials and are ideal for illuminating outdoor spaces while saving energy.

Among the various glass blocks designed for energy performance, four models in particular stand out for their exceptional U ...

Composed of solar powered, low-voltage illuminating glass pavers -- the Photovoltaic collection is a fast, easy and low-cost alternative to electrical ground lighting.

The Solarvolt BIPV glass system replaces traditional facade cladding materials and enhances commercial building exteriors by providing sunshading, overhead glazing, CO2-free power ...

Solar Wall Tubes from Seves Glass Block Inc. are available in various sizes with your choice of privacy levels. They are thermally broken and thus provide improved thermal performance. ...

Photovoltaic transforms the already eco-friendly glass block into a new building material, ideal for lighting exterior applications while conserving ...

Composed of solar powered, low-voltage illuminating glass pavers -- the Photovoltaic collection is a fast, easy and low-cost alternative to electrical ...

With its energy-saving, self-cleaning and solar reflective characteristics, glass block is the best solution for sustainable building projects.

Photovoltaic transforms the already eco-friendly glass block into a new building material, ideal for lighting exterior applications while conserving energy.

This mosaic glass table lamp can provide unparalleled enjoyment at night. Gradually color-changing light creates fantastic and ...

This mosaic glass table lamp can provide unparalleled enjoyment at night. Gradually color-changing light creates fantastic and romantic atmosphere. And the single ...

Solar Reflective Glass Block helps minimize winter heat loss, prevents summer interior overheating, and provides UV radiation protection--a sustainable solution to lower energy ...
