What is Photovoltaic Glass?

Our photovoltaic glass offers a cutting-edge solution for both new construction and renovation projects. When integrated into ventilated facades, this glass enhances building aesthetics while providing key benefits such as radiation protection, thermal and acoustic insulation, and improved occupant comfort.

What Glass Technologies does Onyx Solar offer?

At Onyx Solar, we understand that every project is unique. To meet specific requirements, we offer two advanced photovoltaic (PV) glass technologies: amorphous silicon and crystalline silicon, both fully customizable.

Is Photovoltaic Glass a good investment?

Photovoltaic glass not only offsets conventional building material costs but also provides a tangible return on investment through energy generation. With an average payback time of 4 years and yearly ROIs of up to 20%, it stands as a sound economic choice.
