How do I install a battery cabinet?

Install plastic covers onto batteries. Some covers may need to be notched for locations with bus bars and/or cables in upward orientation. Ground the battery cabinet to the main building ground. A ground stud inside the cabinet is provided for this. Refer to the UPS or charger manual for start up and operation of system.

How do you ground a battery cabinet?

Ground the battery cabinet to the main building ground. A ground stud inside the cabinet is provided for this. Refer to the UPS or charger manual for start up and operation of system. 8. SYSTEM MAINTENANCE

What should I know before installing a battery cabinet system?

Never enclose batteries or battery cabinets in a sealed air tight room. All jewelry and watches must be removed prior to installing or servicing this system. Do not smoke or present flame near or around any battery cabinet system. Never leave a panel off or door open and unattended. 3. INSPECTION UPON RECEIPT OF GOODS

Where are the battery Breakers located?

For EFS configurations, the breakers are located on the side of the cabinet. EFC5x and EFS5x cabinets have a maximum battery configuration of 8 wide by 5 tiers high. EFC4x cabinets have a maximum battery configuration of 8 wide by 4 tiers high. For mounting hole dimensions, please refer to the cabinet layout drawing at the end of this manual.

The battery cabinet is equipped with narrow pallet jack or forklift access openings in the front and rear of the cabinet. Move the equipment into the desired location and set in place.

"I've been buying my Jeep's Optima batteries here forever--well even at their old location and now they have moved, in October 2021, to this nicer location. They even honored my warranty this ...
