What is EBRD doing with Tashkent solar PV & energy storage?

Nandita Parshad, Managing Director, Sustainable Infrastructure Group at EBRD, said: "We are proud to partner with ACWA Power and co-financiers on the pioneering Tashkent Solar PV and energy storage project in Uzbekistan, the largest of its kind in Central Asia. The project is core to Uzbekistan's ambition to install 25GW of renewables by 2030.

Where is PV plant located in Tashkent?

The PV plant site is located along the 4R-12 district highway, which links feeder roads within the districts of Yukorichirchik, Parkent and Kibray to the ring road along the outskirts of Tashkent City. The single carriageway is paved and in good condition.

Where is Bess project located in Tashkent?

The PV plant and the BESS facility are situated 3.5 km apart, within Yuqorichirchik District and Parkent District respectively. Both districts are located within Tashkent Region. The overall project location lies about 20 km from Tashkent City.

Why is ACWA partnering with Tashkent Riverside?

The agreement today for the Tashkent Riverside project reflects the strong trust placed in ACWA Power as the private sector partner, and one of the global leaders in renewables and energy storage.

This project can power 170,000 households and the battery storage capacity is equivalent to 8000 electric vehicles." The project will ...

The Tashkent project consists in the construction and operation of a 200MW solar plant and a large-scale

500MWh battery, both located ...

This is one of the largest EBRD-supported BESS projects in the economies where the Bank operates. The project's technology will help ensure the safe and reliable connection ...

Tashkent, Uzbekistan - Sungrow, a global leader in PV inverter and energy storage solutions, has successfully commissioned the Lochin 150MW/300MWh energy storage ...

Co-developed by ACWA Power and Uzbekistan's Ministry of Energy under an Independent Power Producer (IPP) framework, the Project features a 334MW/500MWh single ...

TASHKENT, May 21, 2024 -- The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250 ...

Located approximately 20 kilometers northeast of Tashkent, the capital city, the project comprises a 200 megawatt (MW) solar photovoltaic (PV) plant coupled with a 500 megawatt-hour (MWh) ...

The Tashkent project consists in the construction and operation of a 200MW solar plant and a large-scale 500MWh battery, both located around 20 km northeast of Tashkent, ...

This project can power 170,000 households and the battery storage capacity is equivalent to 8000 electric vehicles." The project will play an instrumental role in achieving ...

This project is a key collaboration between ACWA Power and the Uzbekistan Ministry of Energy, which includes a 200MW photovoltaic and 500MWh energy storage ...

Tashkent, Uzbekistan - Sungrow, a global leader in PV inverter and energy storage solutions, has successfully commissioned the ...

This is one of the largest EBRD-supported BESS projects in the economies where the Bank operates. The project's technology will help ...

The Project will also involve the establishment of a 500 MWh AC-coupled Battery Energy Storage System (BESS). The BESS will operate on an independent basis (separately from the PV ...

The CAES project is designed to charge 498GWh of energy a year and output 319GWh of energy a year, a round-trip efficiency of 64%, but could achieve up to 70%, China Energy said. 70% ...
