What is a firefighter storage container?

Portable storage containers are ideal structures for fire departments to conduct firefighter training. Shipping containers are highly versatile and customizable, allowing fire departments to stack storage units on top of one another to create any number of unique building designs.

What are shipping container fire structures & training centers?

Shipping Container Fire Structures & Training Centers for Fire, Law Enforcement, Federal Agencies, and Military. Single shipping containers to multi-box stacked training towers. Conex Boxes are 1-shp (brand new) and designed and fabricated in house start to finish.

What types of fire training can a shipping container support?

Most shipping containers can support various types of fire training, such as digital, gas-fueled, or carbonaceous fires. This can allow fire departments to train in a variety of different ways or skill-levels using the same shipping container structure.
