How much is anti-dumping duty on solar glass?

In a bid to reduce imports and boost domestic manufacturing, the union ministry of finance last month imposed a provisional anti-dumping duty on textured, tempered, coated and uncoated solar glass imports from China in the range of \$673-677 per tonne and \$565 per tonne for imports from Vietnam.

Why does the UAE impose anti-dumping duties?

The UAE may impose anti-dumping duties on specific products to protect local industries. These duties vary by product and country of origin, ranging from 10% to 200% above standard rates. Operating through UAE free zones offers significant customs advantages: The UAE participates in the ATA Carnet system, allowing temporary duty-free imports for:

Will anti-dumping duty increase solar PV module prices?

(Image: Pixabay) New Delhi: The imposition of anti-dumping duty on solar glass last month has led to a rise in solar photovoltaic (PV) module prices by 10-12%, raising concerns over project cost escalations and potential delays, industry participants said.

What's going on with solar modules?

“After increasing the import duty on solar modules from 0% to 44% back in April 2022 and imposition of ALMM restrictions, which spurred domestic capacity expansion, attention has now turned to safeguarding the production of key components like glass and aluminium frames used in solar modules.”
