-----

CIEL has cautioned that risky solar geoengineering initiatives, including outdoor experiments, could violate the precautionary principle ...

Discover how UK geo engineering research may affect solar output and why improved PV tech, batteries, and smart controls keep your system future-proof.

Three year old Space Solar has completed an 18-month engineering design and development project for key parts of its modular space-based solar power system.

In a controversial move that positions Britain at the vanguard of experimental climate intervention, the UK government is to commit £50 million to field trials of solar radiation ...

These outdoor experiments won't stand alone. At the start of April, we announced new funding to support our modelling research, ...

CIEL has cautioned that risky solar geoengineering initiatives, including outdoor experiments, could violate the precautionary principle and must be halted to safeguard both ...

In a controversial move that positions Britain at the vanguard of experimental climate intervention, the UK government is to commit £50 ...

Because of the potential for modifications in one area having an impact across the globe, experts are calling for an international ...

Three year old Space Solar has completed an 18-month engineering design and development project for key parts of its modular ...

Because of the potential for modifications in one area having an impact across the globe, experts are calling for an international framework to regulate geo-engineering ...

The UK becomes the first country to put serious public money into solar geoengineering.

Supported by the Advanced Research and Invention Agency (ARIA) as part of its five-year Exploring Climate Cooling programme, the projects are among the most significant ...

We provide world-class engineering, solar design, and project management expertise to empower investors, EPCs, and developers with innovative, precise, and efficient solar farm solutions ...

These outdoor experiments won't stand alone. At the start of April, we announced new funding to support our modelling research, which will use Earth Systems Models to ...

Carbon Brief explains what the new UK solar geoengineering research programme consists of and explores the concerns surrounding ...

Carbon Brief explains what the new UK solar geoengineering research programme consists of and explores the concerns surrounding the technology.
