What is waste in Vanuatu?

Waste received at the main Bouffa landfill in Vanuatu is comprised of up to 35% of beverage containers products(aluminium,PET,glass). Beverage containers are also commonly seen as litter and in informal stockpiles or burnt by communities in pits.

What is a sustainable financing system in Vanuatu?

The Vanuatu Department of Environmental Protection and Conservation (DEPC) views a Sustainable Financing system (known as a Product Stewardship Scheme(PSS)) as a solution to enable the collection and management of recyclable items.

Is Vanuatu a good place to recycle beer containers?

Beverage containers are also commonly seen as litter and in informal stockpiles or burnt by communities in pits. Vanuatu has had limited successimplementing long-term solutions for recovery of recyclable items,due to lack of financing,infrastructure,technical expertise,and formal waste collection services.

Does Vanuatu have a product stewardship scheme?

Vanuatu has been working towards a Product Stewardship Scheme since 2017through support from other donors. The DEPC seek for PacWastePlus,in partnership with other donors such as J-PRISM II and GEF ISLANDS,to support select components of this pathway: Browse through all the resources published from this project.

Source o Used transparent and light blue PET beverage bottle, blow-molded. Manned sorting and cleaning for stable and consistent flow of PET bottles
