Wien Energie is using innovative ideas to help shape the energy system of the future. Learn more about our showcase projects here.

A solar system has been installed on the roof of Vienna's Ernst Happel Stadium, marking a significant step toward sustainability. The array features over 9,300 solar panels, 80,000 ...

In autumn 2020, Wien Energie started construction of a photovoltaic plant that will be the biggest in Austria when it goes online. On Schafflerhofstraße in Vienna's 22nd district, on the site of a ...

The installation of a solar system on the roof of Vienna's Ernst Happel Stadium is now complete. The array consists of more than 9,300 solar modules, 80,000 trapezoidal rails, ...

Vienna West Station becomes a solar power plant. The largest inner-city photovoltaic system is being built on the new platform roof at Vienna's Westbahnhof. In the ...

Together with its partner SPI Intelligence Services, Heliatek has realized a large-scale rooftop installation at Wien Energie's power plant in Vienna Simmering. Close to 350 ...

Summary: Vienna is emerging as a leader in photovoltaic energy storage projects, combining solar power with advanced battery systems to build a resilient and eco-friendly energy grid.

A study 1 carried out by the University of Applied Sciences Technikum Wien, AEE INTEC, BEST and ENFOS presents the market development of energy storage technologies ...

Imagine storing energy as simply as filling a balloon with air--sounds almost too easy, right? That's

essentially what Vienna's compressed air energy storage (CAES) project ...

SolarSK completed a 1.3 MW rooftop solar plant for Technopark Vienna in just 3 months. The project powers refrigeration, production, and 300 electric buses, cutting energy ...
