We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions.

Our proven HELIOS Solarator(TM) products are mobile, containerized renewable energy stations trusted by major corporations and government bodies on remote, regional, and urban sites.

Wellington's first container energy sharing platform lets businesses split costs, with systems rotating between construction sites, outdoor events, and backup power duty.

EK Solar Energy provides professional base station energy storage solutions, combined with high-efficiency photovoltaic energy storage technology, to provide stable and reliable green energy ...

Whether deployed as a standalone microgrid or part of a larger portfolio, our containerized systems ensure rapid installation, guaranteed reliability, ...

Next-generation thermal management systems maintain optimal operating temperatures with 40% less energy consumption, extending battery lifespan to 15+ years. Standardized plug-and-play ...

CentrePort has already made great strides with its energy transition in a relatively short period of time, with its 100% electric port trucks and associated battery management ...

Whether deployed as a standalone microgrid or part of a larger portfolio, our containerized systems ensure rapid installation, guaranteed reliability, and the resilience needed for extreme ...
