-----

From large-scale pumped hydroelectric storage to cutting-edge battery technologies, Colombia explores a diverse array of options to efficiently store and manage energy, thereby ...

Energy storage is a "force multiplier" for carbon-free energy. It allows for the integration of more solar, wind and distributed energy resources, and increases the capacity factor of existing ...

But here's the kicker: this South American gem is quietly becoming a hotspot for innovative energy solutions. With its growing renewable energy sector and unique ...

The map displays the resources and energy infrastructure of the region as of 2022. Data is available for mining, electricity generation capacity, natural gas and oil infrastructure, as well ...

Alejandro Lucio, the CEO of Colombian energy consultancy firm &#211;ptima, explains how regulatory changes could jumpstart investment ...

This year's events bring together Latin America's leading investors, policymakers, developers, utilities, network operators, EPCs ...

Colombian energy company Celsia has announced the launch of what it described as the first solar energy storage system in the country, at the Celsia Solar Palmira 2 PV farm, ...

Alejandro Lucio, the CEO of Colombian energy consultancy firm &#211;ptima, explains how regulatory changes could jumpstart investment in the nascent segment.

Residential energy storage systems, such as batteries and solar-plus-storage solutions, enable homeowners to store excess energy generated from renewable sources such as solar panels ...

Colombian energy company Celsia has announced the launch of what it described as the first solar energy storage system in the ...

Energy storage is redefining what is possible for Colombia's grid. It is the key to balancing renewable growth with reliability, ensuring that clean energy is both abundant and ...

This year's events bring together Latin America's leading investors, policymakers, developers, utilities, network operators, EPCs and more all in one place to discuss the ...

Colombia's third-largest energy company didn't just dip a toe - they cannonballed into storage. Their "Bater&#237;a en Casa" program lets homeowners store surplus solar energy at 50% lower ...
