What is the EV policy in Bahrain?

In 2021, the Kingdom issued the "Electric Vehicles Technical Regulation", to promote and adopt green transport in Bahrain. In 2023, the Ministry of Electricity and Water Affairs awarded a contract for the development of an electric vehicle (EV) strategy for the Kingdom.

How many megawatts will Bahrain produce by 2025?

Bahrain will have to produce 280 megawatts of electricity from renewables by 2025, increasing to 710 megawatts by 2035, to meet the country's renewable energy targets.

Can 'district cooling' improve the efficiency of air conditioning in Bahrain?

As a result, Bahrain is looking to utilize the practice of "district cooling" to increase the efficiency of air conditioning by as much as 50 percent. Bahrain generates approximately 2.6 kg of solid waste per person per day.

Location of the wind turbine installation (1.7 MW) at Al Dur (By EWA) and the Solar PV System (1 MW) at Awali (by the Bahrain Oil Company) in the Kingdom of Bahrain.

As a global clean energy pioneer, Masdar is advancing the development and deployment of solar, wind, geothermal, battery storage ...

Solar energy capture is a natural and obvious choice in this part of the region. A comprehensive study of the potential of wind energy ...

Masdar and Bapco Energies to develop up to 2GW of wind projects in the Kingdom of Bahrain

Which departments are involved in wind power in Bahrain solar container communication stations
