Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

Zambia, a landlocked gem in Southern Africa, is rapidly emerging as a hub for energy storage container factories. With renewable energy adoption surging globally, the country's strategic ...

Described as Zambia's inaugural solar facility equipped with battery storage, the project holds an estimated value of \$65 million. It is slated to commence commercial operations by September ...

Zambia has started construction at the Maamba Solar Project, situated in the Sinazongwe district. With a capacity of 100 MW, the project will supply clean power to the country's national grid.

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular ...

In response, Zambia is accelerating efforts to diversify its energy mix, with off-grid solar solutions emerging as a key pillar of this strategy.

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three ...

Our target is to have at least 200 solar mini-grids operational by 2030, ensuring that every rural district
