---

This is CATL's first zero-carbon factory focused on energy storage batteries and its second wholly-owned zero-carbon battery factory after the Yibin factory in Sichuan, it said. The ...

Starting next year, Antora's new manufacturing plant will produce modular thermal batteries to help decarbonize heavy industries. ...

Shandong Contemporary Amperex Technology Limited (Shandong CATL), a subsidiary of CATL, has commenced operations at its new energy storage and power battery ...

The project will focus on the research, development, and production of vanadium flow batteries, the development of new power systems, and the construction of zero-carbon ...

Antora Energy has developed a way to store thermal energy and use it to deliver on-demand, zero-carbon industrial heat and power. Learn more from this video in less than ...

Giant factories that produce textiles, food, chemicals and cement require massive amounts of energy. Antora is one of several companies developing batteries that can store ...

Bill Gates-backed startup Antora Energy is preparing to roll out a containerized, modular heat battery, designed to store renewable energy at the lowest possible cost - then ...

XIZICE Zero-carbon Smart Energy Center is based on photovoltaic, molten salt energy storage, electrochemical energy storage, hydrogen fuel cell and other new energy as the core.

On September 26, Haichen Energy Storage Xiamen Factory obtained the PAS2060 carbon neutrality

certification (No. 0412TZH01106), indicating that Haichen Energy Storage Xiamen ...

Sunnyvale, CA - Antora Energy, a leader in zero-carbon heat and power for the industrial sector, has announced its first large-scale ...

Starting next year, Antora's new manufacturing plant will produce modular thermal batteries to help decarbonize heavy industries. Today Antora Energy, a California-based ...

Sunnyvale, CA - Antora Energy, a leader in zero-carbon heat and power for the industrial sector, has announced its first large-scale thermal battery manufacturing facility.
