-----

New technology is being introduced or sold to individuals or small families, but renewable energy is not being made part of a decent life for the entire community.

In this study, performance, energy efficiency, cost competitiveness, and global warming assessments of residential scale solar thermal and off ...

This recognition came after a survey of over 79 000 energy users worldwide. Customers in Zimbabwe shared that Agriput's solar products had significantly improved their ...

In this study, performance, energy efficiency, cost competitiveness, and global warming assessments of residential scale solar thermal and off-grid Photovoltaic driven DC air ...

The success of this project demonstrates the potential of solar power to transform Zimbabwe's energy landscape. By embracing solar energy, we can reduce our reliance on ...

Zimbabwe's energy sector is now the critical battleground for its economic recovery. With rising investment interest in solar, and growing ...

Located just 40 kilometers from Harare, the plant is a pivotal step toward easing the nation's energy crisis and reducing pollution. The ...

Zimbabwe is intensifying its campaign to promote energy-efficient appliances, including refrigerators and air conditioners, as part of its commitment to combat climate ...

This project, Africa's largest single-unit "solar + storage + diesel" hybrid system, has seen its first phase

generate approximately 16 million kWh annually, resulting in over RMB 20 ...

New technology is being introduced or sold to individuals or small families, but renewable energy is not being made part of a decent ...

Zimbabwe's energy sector is now the critical battleground for its economic recovery. With rising investment interest in solar, and growing public frustration over prolonged outages, ...

Located just 40 kilometers from Harare, the plant is a pivotal step toward easing the nation's energy crisis and reducing pollution. The launch of the Melfort Solar Power Plant ...

At Soti Source clinic, newly-acquired freezers were evident, denoting a transition from archaic ways of storing medication that require low temperatures. "We all wanted this; ...

At Airmass Sustainables, we provide high-quality solar installations designed to maximize efficiency and durability. Solar energy not only reduces dependency on the national grid but ...
